

Guizhen Wang

3035 Courthouse Drive W #2A, West Lafayette, IN 47906
(765)-476-3524 | wguizhen@gmail.com

EDUCATION

Purdue University, Department of Statistics	Jan.2019 – Dec 2021
M.S. in Joint Statistics and Computer Science	GPA: 3.60/4.00
Purdue University, School of Electrical and Computer Engineering	Aug. 2013 - Aug 2020
Ph.D. in Computer Engineering	GPA: 3.60/4.00
Dissertation: Interactive exploration and visual analytics for large spatiotemporal data using approximate query processing	
Zhejiang University, College of Computer Science, Hangzhou, China	Aug. 2009 - May 2012
M.S. in Computer Science	GPA: 3.84/4.00
Shandong University, College of Computer Science, Jinan, China	Sept. 2005 - July 2009
B.S. in Computer Science	GPA: 3.70/4.00

TECHNICAL SKILLS

- Programming languages: C, C++, Java, Python, HTML5, CSS, Javascript, SQL, R, Matlab
- Programming libraries and framework: MFC, .Net, OpenGL, Qt, React, Flask, PyTorch

RELEVANT COURSEWORK

- Math and Statistics: Elementary Stochastic Process, Applied Bayesian Decision Theory, Data Mining, Design of Experiment, Linear Algebra, Calculus, Discrete Mathematics, Probability and Statistics,
- Computer Science: Operating System, Compiler, Network, Distributed system, Algorithm, Data structure, Data Visualization, Database

RESEARCH EXPERIENCE

Graduate Student Research Assistant

- School of Electrical and Computer Engineering, Purdue University, West Lafayette, IN Aug. 2013 - present
- Developed data visualization systems serving multiple data-driven decision-making scenarios (e.g., Law Enforce Agencies, U.S. Coast Guard, and Precision Irrigation).
 - Developed an algorithm detecting anomalous vessel movement activities.
 - Reduced large data processing latency via designing novel sampling-based approximate query processing approaches, including designing client-server data transfer workflow and resolving spatial sampling bias

Graduate Student Research Assistant

- College of Computer Science, Hangzhou, Zhejiang, China Aug. 2009 - Dec.2012
- Conducted data mining and Visualized data patterns for social network data and document corpus (e.g., sequential semantic evolution)
 - Constructed human brain fiber paths from Magnetic resonance imaging data.
 - Compressed 3D volume data by leveraging some numerical calculation algorithms, including hashing and tensor.

Internship

- Internet Graphics Group, Microsoft Research Asia, Beijing, China May. 2011 - June 2012
- Conducted research on textual data analysis and visualization (e.g., exploring a huge corpus based on topic information).

HONORS AND AWARDS

- 2017 Purdue Graduate Student Government (PGSG) Travel Grant Award
- 2015 IEEE VAST Challenge Honorable Mention: Compelling Narrative Debrief
- 2011 IEEE PacificVis Best Poster Award

- 2010 1st-class Award of Honor for Graduate of Zhejiang University (Top 3/28 students were awarded.)
- 2005-2009 Excellent student scholarship at Shandong University for 3 times (Top 5% students were awarded.)
- 2008 1st Prize of Shandong Province's Robot Contest, China (Dancing robot)

MENTORING EXPERIENCE

Graduate Mentor

Department of Electrical and Computer Engineering, Purdue University Summers (2016, 2017) & Spring (2019, 2020)

- Mentored two undergraduate students majored in Computer Science to develop new components in a visual analytics system for law enforcement agencies.
- Mentored an undergraduate majored in Computer Science to develop a QT-based data visualization system for Augmented-Reality decision-making environments.
- Mentored two undergraduates majored in Electrical and Computer Engineering to develop a Java-based data visualization system for radar-captured human movement data.
